Емульсия Emulsion

Эмульсия - водно-дисперсионная акриловая краска, предназначенная для покраски стен, потолков. Очень легко накладывается на любую заранее оштукатуренную поверхность – бетонную, деревянную, гипсобетонную. Благодаря специальным элементам в составе, эмульсия влагонепроницаема и может быть использована в помещениях с повышенной влажностью.

Emulsion - water-dispersion acrylic paint intended for painting walls and ceilings. It is very easy to apply on any pre-plastered surface - concrete, wood, gypsum concrete. Thanks to special elements in the composition, the emulsion is moisture resistant and can be used in rooms with high humidity.
