ÇUKUROVA
Makina İmalat ve Ticaret A.Ş.

- **ÇUMİTAS, Launched in 1968 under the license agreement with JOHN DEERE to produce agricultural equipment.**
- **Until 1986; 26.250 units of agricultural equipment were manufactured.**
- **In 1986 due to the economical situation of TURKIYE during the Iran-Iraq wartime, the company started to manufacture Earth-Moving and Industrial Machineries under its own “ÇUKUROVA” brand name.**
- **Since 1986, all the equipment has been produced 100% by Cukurova Design and Engineering team.**
- **The company has the know-how to produce all kinds of earth-moving and industrial machines and also 4x4,6x6..Special Purpose Chassis for APC/MRAP.**
- **Factory has**
 - 15,000m2 closed area.**
 - 90,000m2 open area.**

ÇUKUROVA
Makina İmalat ve Ticaret A.Ş.

Standard Products:

- Backhoe Loaders
- Wheel Loaders
- Excavators

Standard Products: (Çukurova brand)

Backhoe Loaders

- 880: 1,0 m3, 4X4 Front axle steering 7,5 tons
- 883: 1,0 m3, 4X4 Front axle steering 8,5 tons
- 885: 1,0 m3, 4x4 Front axle steering 8,5 tons
- 888: 1,1 m3, 4X4X4 Front/rear axles steering 9,5 tons

Note: Designing and Manufacturing for OEMs as well.

Standard Products:

Wheel Loaders:

- 940 : 2,0 – 1,5 m³, 14,5 tons
- 980 : 3,0 – 3,5 m³, 19,5 tons
- 990 : 3,5 – 4,5 m³, 24,5 tons

ÇUKUROVA
Makina İmalat ve Ticaret A.Ş.

Standard Products:

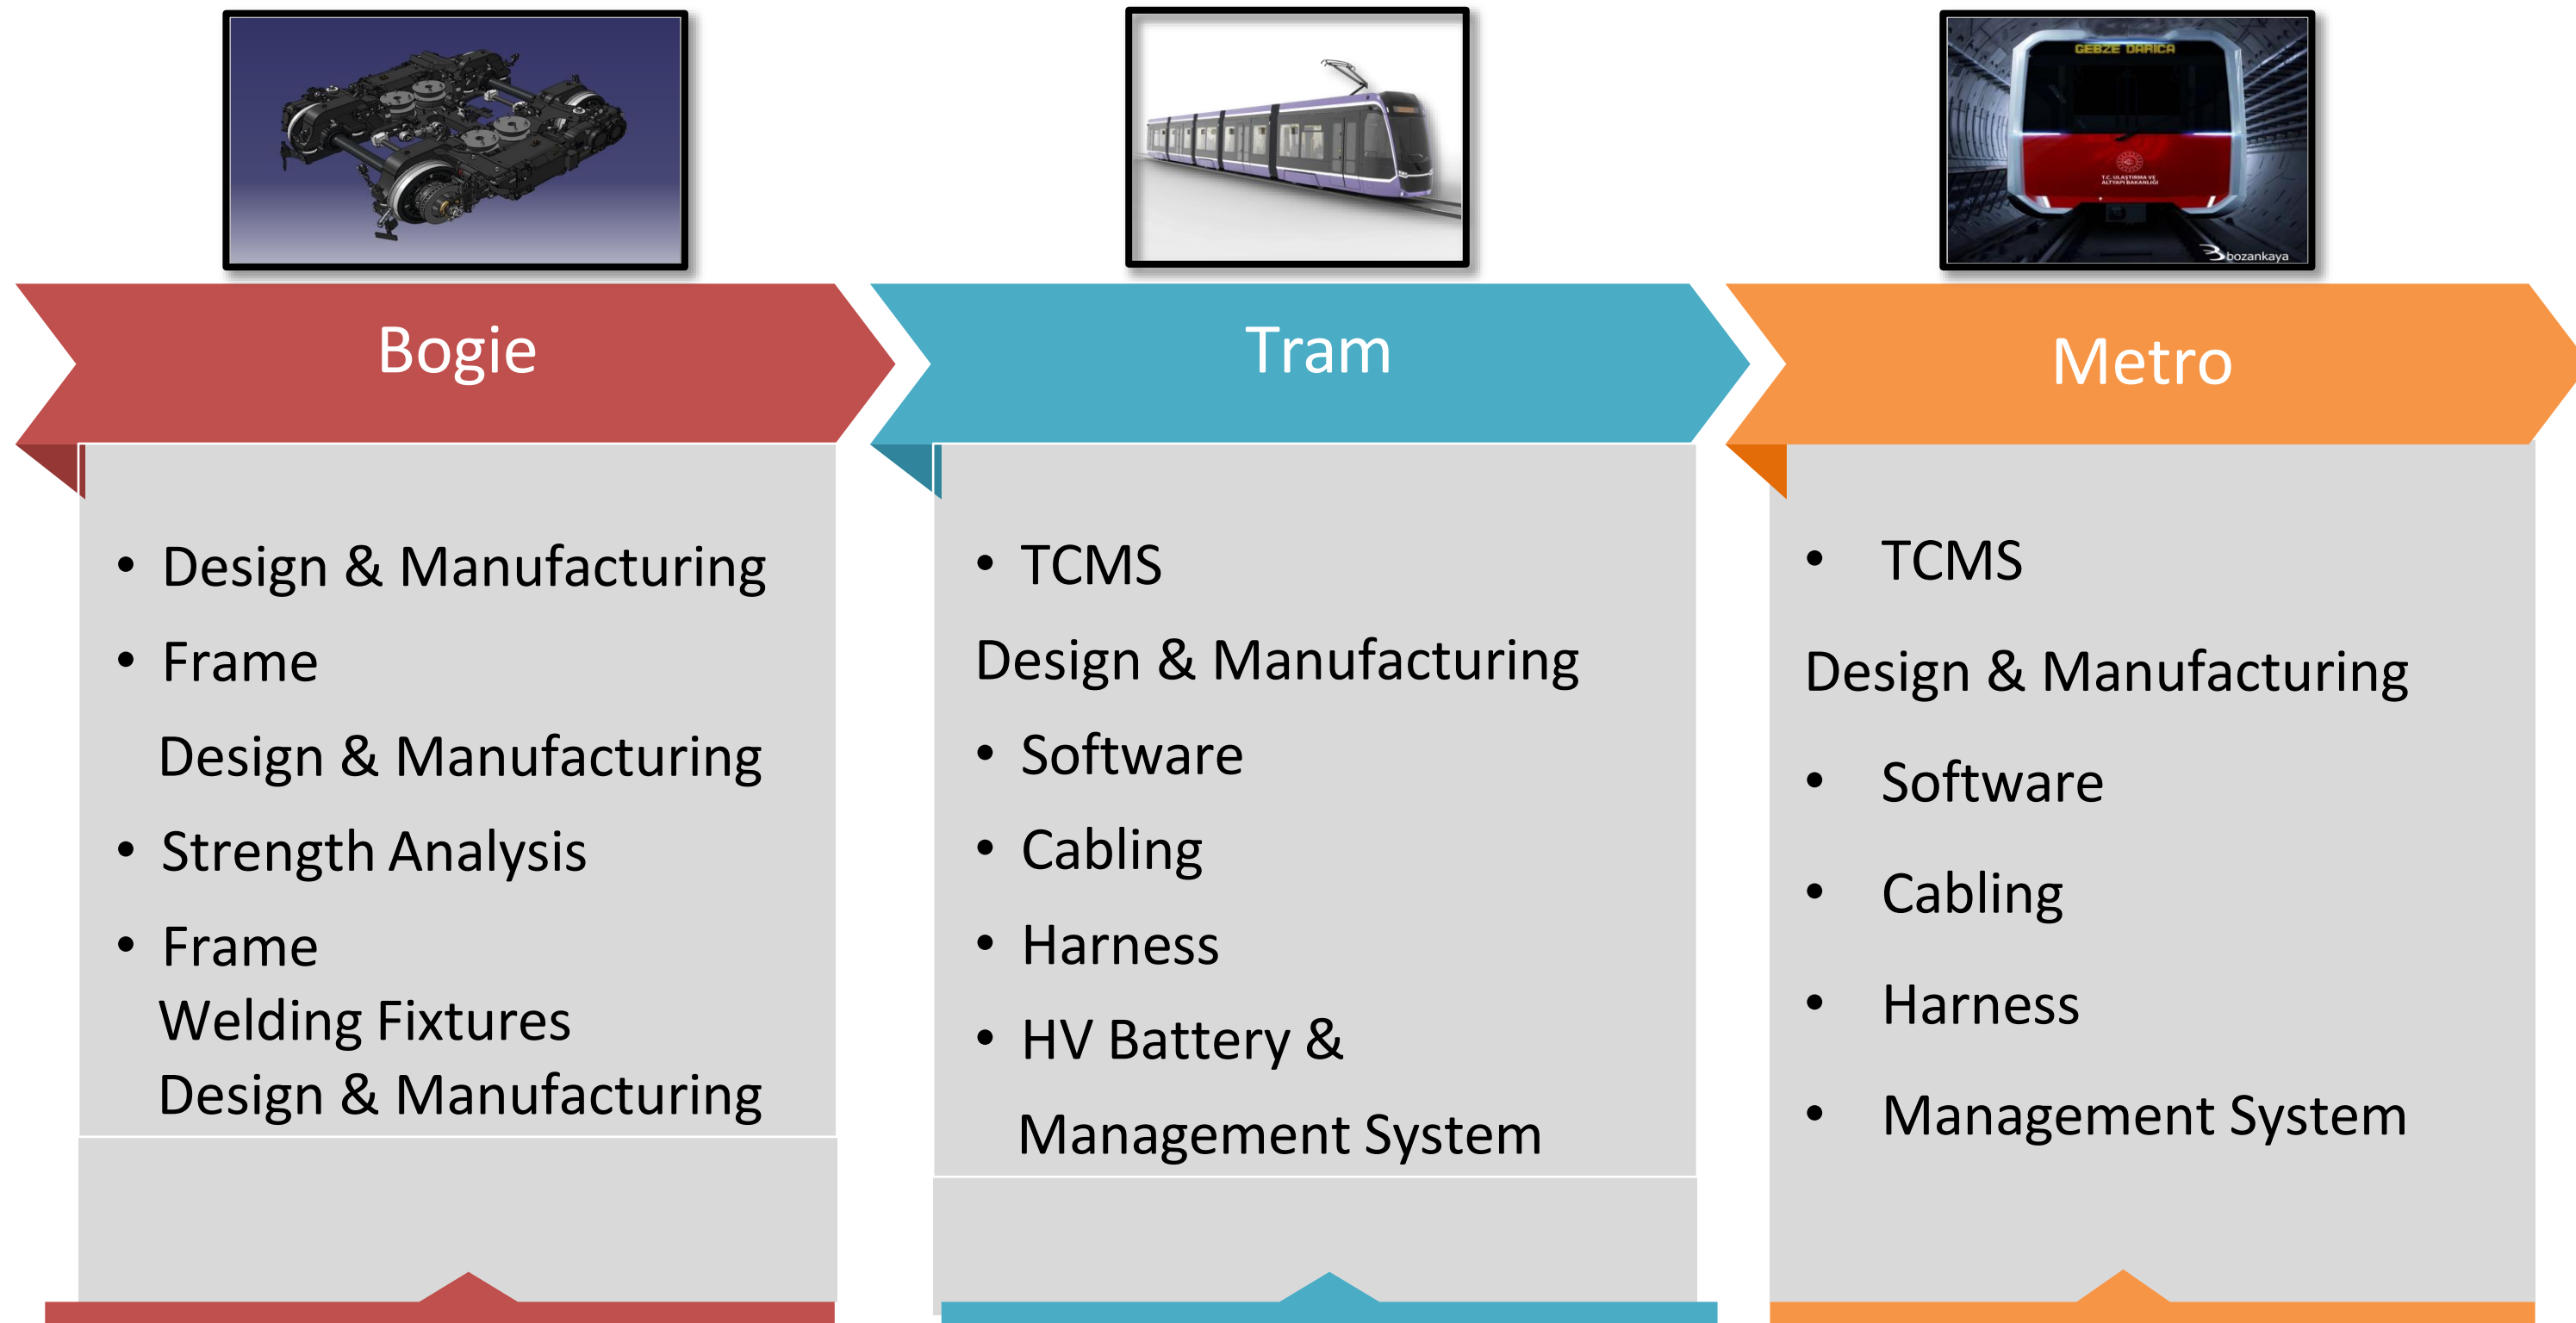

Excavators:

- 723:21-23T
- 730:30T
- 730WEX-17T

Overview to e-Transport Solutions 1/11

Engineering to Order, Design to Manufacturing and Delivery
of the above-mentioned e-transport solutions through accredited R&D center

Overview to e-Transport Solutions

11/11

E-BUS

- 10m, 12m, 18m, 25m
- Design & Manufacturing
- Software
- Cabling
- HV Battery & Management System

Trolleybus

- 12m, 18m, 25m
- Design & Manufacturing
- Software
- Cabling
- HV Battery & Management System

Electrical Component

- Battery Management System,
- Chargers
- Traction Electronic System (Inverter, PCB Card etc.)

Metal Process

- Sheet Shaping & Forming
- Pipe & Tube Shaping & Forming
- Welding & Manufacturing
- Sand Blasting/Leveling
- Paint Shop

Engineering to Order, Design to Manufacturing and Delivery
of the above-mentioned e-transport solutions through accredited R&D center

Products

I/II

Trams

- 100% low-floor design
- Award-winning battery powered tram with longest range in railway history
- High passenger capacity up to 300 passengers (for 32m length).
- Low energy consumption (2.4kWh/km), zero emission and modern design, offering space, comfort and safety
- Endurable, efficient and modular design

Metros

- High passenger capacity: 1150 passengers (for 90m length)
- Unique design, offering safety and comfort
- Currently transports more than 1 million passengers/day; safely & efficiently

Products

E-Bus (*)

- 100% Electric traction
- Length options: 10, 12, 18 & 25 meters
- Passenger capacity between 75 and 232
- ~300 Km range with a single charging

- Bozankaya 3rd generation e-buses will be launched in 2023.

Trolleybus «Trambus»

- High passenger capacity: 221 (for 25m length)
- Environmentally friendly with zero-emission
- Low consumption: 3kwh/km for 25m with HVAC on

- Non-catenary driving option
- Length options: 10, 12, 18 & 25 meters (for turnkey option)
- Low infrastructure cost

Romania Iasi Tram

- 16 Sets
- 30 meters in length
- Narrow gauge – 1000 mm; 2,4m width
- 100% low-floor
- 18 months delivery period
- Delivery in progress

Romania Timisoara Battery Tram

- 16 + (5 + 2) + 17 Sets
- From the order option of 24 sets, 7 more sets were converted into orders.
- 100% low-floor battery-powered tram
- 30 meters in length
- Normal gauge – 1435 mm; 2,4 m width
- 48 months delivery period
- Delivery in progress

Alstom Marseille Metro - Under Frame

- Underframe production for 152 metro vehicles
- Delivery plan between June 2021 and February 2025

Alstom Cologne Tram

- Underframe production of 64 Tram cars of 30 meters length

■ ABOUT TÜMOSAN

- TÜMOSAN was established in 1976 to produce motor drive and transmission organs and similar equipment, but has concentrated its activities on diesel engine and tractor production.
- TÜMOSAN possesses the distinctive quality of being Turkey's first diesel engine manufacturer.
- TÜMOSAN has been producing diesel engines for many years for TURK TRACTOR and OTOYOL besides providing diesel engines for tractors produced for their own brand.

■ SEMITRAILERS

 **KOLUMAN**

Koluman semi trailers

 **YILDIZ**
TREYLER

Yıldız refrigerated semi trailers
