

Global Load Engineering Industry Meets

in Istanbul on 9-11 September 2025!

LES-EXPO, the world's first and only specialized exhibition in the field of load engineering services, will be held at Istanbul Expo Center between 9-11 September 2025. Realized in cooperation with the Load Engineering Association (YMB) and KFA Exhibition Organization, this giant organization, brings together the leading companies of the sector from Europe, Asia and Africa and gathers all the components of the load engineering ecosystem under one umbrella.

Load engineering services, which play a critical role in sectors such as construction, energy, maritime, heavy industry and infrastructure, contribute approximately \$12 billion annually to the Turkish economy. **LES-EXPO** will bring together crane, machinery, vehicles, equipment and service providers, providing an opportunity to learn about the latest technologies and solutions in the industry.

WHAT IS LOAD ENGINEERING?

Load engineering is a multidisciplinary field that encompasses the safe, accurate, and well-planned lifting, transportation, and positioning of oversized and heavy loads. This process is not solely dependent on equipment, but on the expertise, planning, analysis, and decision-making of skilled engineers who manage these operations. Although not yet formally recognized as a distinct engineering discipline, load engineering plays a vital role in heavy transport operations conducted via land, air, sea, and rail — and occasionally even underwater. It involves critical tasks such as risk assessment, ground condition evaluation, equipment selection, and operational execution monitoring.

As technology advances, environmental conditions evolve, and project scales grow, the variety and complexity of loads continue to increase. This trend highlights the growing strategic importance of load engineering professionals in ensuring safe and efficient heavy lift operations in the future.

WHY SHOULD YOU PARTICIPATE ?

Meet Industry Leaders

Innovative Technologies

Trainings and Seminars

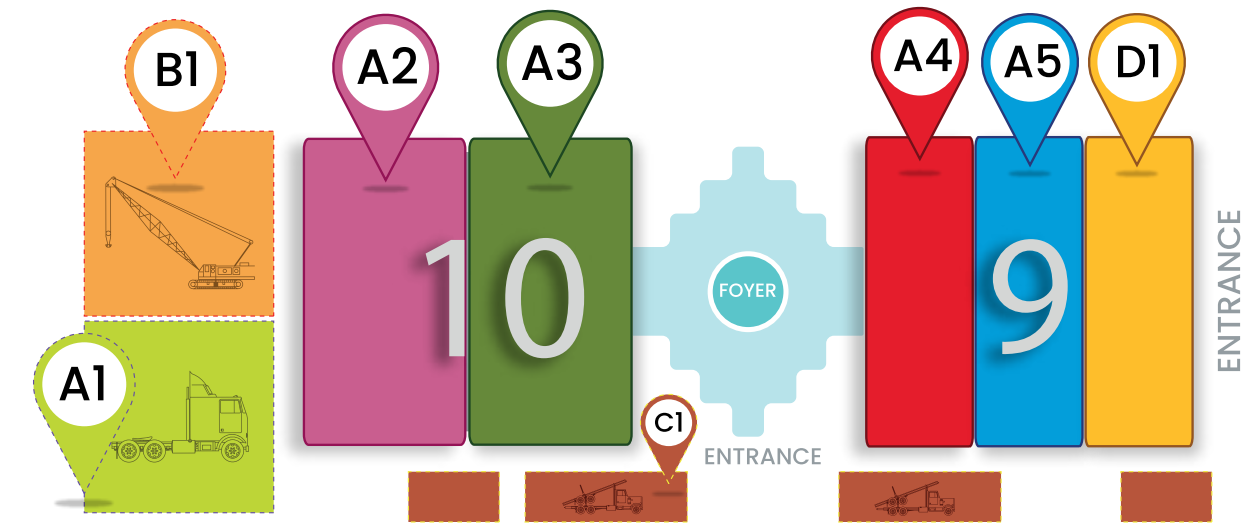

Global Networking Opportunities

WHY SHOULD YOU VISIT?

- » Discover What’s New in the Industry
 - » Meet the Leading Companies
 - » Access Highly Efficient Solutions
 - » Training and Seminar Opportunities
 - » Networking Opportunities
- » Technologies That Will Shape the Future
 - » See Industry Solutions Together
 - » Explore Sustainability Solutions
 - » Gain a Competitive Edge
 - » Meet Your Industrial Infrastructure Needs

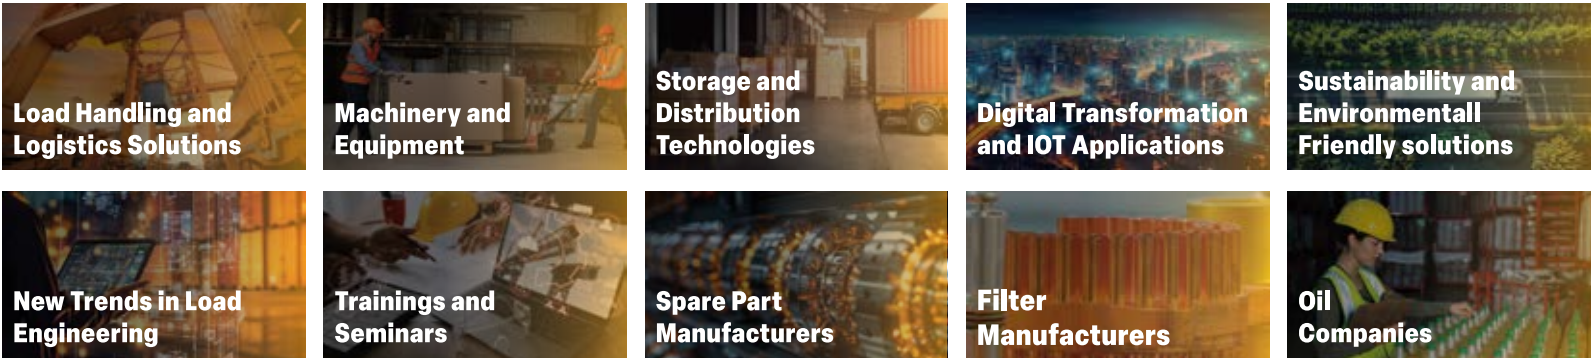

LES-EXPO EAA's LEADING TRADE FAIR for LOAD ENGINEERING SERVICES
9-11 SEPTEMBER 2025

- A1** HYDRAULIC MODULAR TRAILER & SPMT MANUFACTURERS
 - A2** WIND TURBINE & INDUSTRIAL EPC COMPANIES
 - A3** MARITIME SHIPPING, PORT & TERMINAL OPERATORS
 - A4** LOAD ENGINEERING & HEAVY HAULAGE PROVIDERS
- A5** PROJECT LOGISTICS & FREIGHT FORWARDING COMPANIES
 - B1** HEAVY LIFTING EQUIPMENT MANUFACTURERS & DEALERS
 - C1** TRUCKS MANUFACTURERS & DISTRIBUTERS
 - D1** INSURANCE, LEASING, ERP & FINTECH PROVIDERS

SCOPE OF THE EXHIBITION

Les-Expo 2025 is a wide-ranging event covering all areas of the Load Engineering Services Exhibition industry. The exhibition will showcase the latest technologies and engineering solutions that will shape the future of the industry. All the professionals attending the exhibition will have the opportunity to discover the most important developments in the industry.

VISITOR PROFILE

- Companies Carrying Out Large-Scale Housing, Highway, Bridge, Metro, Dam and Airport Projects
 - » EPC (Engineering, Procurement, Construction) contractors
 - Energy and Renewable Energy Companies
 - » Thermal, hydroelectric, nuclear and wind power plant installation companies
 - » Power transmission line contractors
 - Petroleum, Gas and Petrochemistry Facility Investors and Operators
 - » Companies working on refinery, LNG terminal and pipeline projects
 - Wind Turbine Project Investors and Assembly Companies
 - Port Operations, Free Zone and Industrial Zone Investors
- Mining and Mineral Processing Facilities
 - » Mining companies that transport heavy machinery and parts
 - Shipbuilding and Dockyard Sector
 - » Shipyards requiring ship block transportation and assembly
 - » Offshore platform manufacturers
 - Defense and Aerospace Industry Companies
 - » Defense industry companies planning to assemble and transport large-volume equipment
 - Companies Establishing Industrial Facilities
 - » Factory investments in sectors such as cement, iron and steel, paper, chemicals, textiles, automotive

WHO'S EXHIBITING EXHIBITOR PROFILE

- Crane Manufacturers and Distributors
 - Prime Mover / Tractor Truck Manufacturers and Distributors
 - Trailer Manufacturers and Distributors
 - Equipment Manufacturers and Suppliers
 - Freight Forwarding Companies and Agents
 - Maritime Services Companies
 - Sea Freight Companies
 - Port Operators
 - Energy Companies
 - Renewable Energy Companies
 - Ship Brokerage Firms
 - Steel Wire Rope Manufacturers and Distributors
 - Load Engineering Services Providers
 - Heavy Haulage Companies
 - Ro-Ro (Roll-on/Roll-off) Shipping Companies
- Barge Operators
 - Oil Companies
 - Insurance Companies
 - Rail Freight Companies
 - Industrial Project Contractors
 - Wind Turbine Manufacturers
 - ERP Software Providers
 - Leasing Companies
 - Financial Services Companies
 - Air Cargo Transportation Companies
 - Sea Transportation Service Providers
 - Road Transportation Service Providers
 - Tire Manufacturers and Distributors
 - Battery Manufacturers and Distributors
 - Platform Service Providers (e.g., Lift Platforms, Crane Platforms)

Global Load Engineering Services Companies Meet in Istanbul on
9-11 SEPTEMBER 2025!

DECISION MAKERS and SPECIALISTS

- Project Managers
 - Logistics Managers
 - Investment Planning Specialists
 - Engineering Offices (static, mechanical, project companies)
 - Operation Managers Working in Heavy Transportation
- Customs and Logistics Consultants
 - Academicians, Faculty Members from Technical Universities
 - Professional chambers, engineering associations (Construction, Machinery, Ship, Industry, etc.)
